

Top-Level Analysis Screen of nGenius Forensic Intelligence

Event Navigation Pane

Summary of "captured" data analyzed

The screenshot displays the nGenius Forensic Intelligence interface. On the left is the 'Event Navigation Pane' with a search bar containing '22003', a date range of '27 / 7 / 2011', and a 'Continuous playback' checkbox. Below this is a list of events with columns for ID, Event, and Time. On the right is the 'Overview' pane with a 'Refresh every minute' button. It features a 'Privileged Communication' filter, a 'Time range' of '27/07/2011 15:42:21 - 07/12/2011 16:55:22', and several data tables: 'Websites visited' (listing sites like bilder.bild.de and www.facebook.com), 'e-mails (5)' (listing emails from Facebook and Yahoo!), 'Conversation participants (6)' (listing various IP addresses), and 'Intercepted Credentials (0)'. Red arrows point from blue callout boxes to these specific elements.
